

# E Learning @TPPS

in 2009 we had less than 30 computers for teachers and learners. In 2010 we now have over 100. **WOW. We love it!!!** We now have a new E Learning Centre (ELC) and 4 laptops and a desktop computer in each classroom. Mrs Scott is our specialist E Educator who works with our teachers, students and community to make sure that ICT has an impact for learning and achievement.
